About SICS

SICS Swedish ICT is a leading research institute for applied information and communication technology in Sweden. It is a non-profit-distributing organization, which means we are not here to make money but to create value for our customers and partners. The mission of SICS is to contribute to the competitive strength of industry residing in Sweden by conducting advanced research in strategic areas of computer science, and to actively promote the use of new research ideas and results in industry and in society at large.

Yanzi – Internet your things!

With the Yanzi Internet-of-things software platform, service providers can connect billions of things to millions of users to create new exciting services and revenue streams. The cloud service delivery platform allows users to wirelessly connect devices in a true Plug & Play fashion (Patent Pending). The Yanzi software is based on open standards and makes Internet-of-things dramatically easier to develop and deploy. Our mission is to deliver real and robust Internet-of-things solutions to the customers in a record-short time to improve their business performance. Key market applications are; remote site management, smart lighting, smart & secure home and smart cities. The technology is available globally through a network of professional systems integrators and leading service providers. For additional information please visit yanzi.se.
